

Data Visualization Club and CCAM Present:

Introduction to R and Data Visualization Workshop

Presenter: Randall Moya

About Data Visualization Club

Data Visualization Club is a collection of students who are trying to evolve in their respective fields in a world that is more visual than ever. They are here to help anyone who is interested in the art and science of data visualization. They strive to accomplish their goals via association and interaction with the faculty at CSU Fullerton, providing interdisciplinary networking opportunities with industry leaders, and collective idea generation and implementation with fellow CSU Fullerton students and Alumni.

About Randall

Randall Moya has been a member of the statistical community since August 2016 and currently teaches introductory statistic courses. Data visualization has become a passion of his and he enjoys learning new and exciting ways to display data. He currently has a bachelor's degree in Mathematics and a master's degree in Administrative Leadership. He hopes to assist all majors with their research/analytic projects through visual representation.
